

Product Specification Sheet

Product Description

DeTerra 365™ is an anti-caking agent for use in beef and dairy cow rations. Mined in the United States, DeTerra 365 is free of heavy metals and dioxins and is processed through a Safe Feed/Safe Food certified plant. It maintains high quality control and an economical price point.

Ingredients

Montmorillonite Clay

Recommended Use

Include at the rate of 0.25% of dry matter. Not to exceed 2% of the finished ration.

Storage and Handling

Store in a cool, dry place.

Warning: Contains free silica. Do not breathe dust. May cause silicosis. Follow OSHA safety and health standards for crystalline silica (quartz). The IARC has determined that there is limited evidence of the carcinogenicity of respirable crystalline silica to humans.

Availability

DeTerra 365 is available in 50 lb (22.68 kg) bags and 1 ton totes
